Education

B.Sc in Computer Science and Engineering
German University in Cairo, 2021 – 2026 (Expected)

Technical Skills

Languages: Python, JavaScript, Java, C#, C++, SQL, VHDL, HTML
Technologies: MERN Stack, Spring Boot, OpenGL, Flask, PyTorch, React, Blender, Maya
Databases: PostgreSQL, MongoDB, Redis, Cassandra, Neo4j, Elasticsearch
Tools & Platforms: Git, Oracle, Docker

Work Experience

Junior Software Developer, I-Axiom Cloud ERP Apr 2025 – Sep 2025
- Contributed to the development and customization of ERP modules tailored for clients.
- Worked with a full-stack team to integrate frontend dashboards with backend workflows using C#, JavaScript, HTML and Oracle DB.
- Participated in sprint planning, testing, and deployment cycles using Git.

Intern, BSH Home Appliances Egypt Summer 2024
- Completed Pathfinder training, gaining exposure to IT, marketing, logistics, HR, and consumer operations.
- Attended fresh graduate interviews and explored IT infrastructure in factory settings.

Professional Handball Player 2013 – Present
- Right winger for El Tersana Sporting Club (Jul 2024 – May 2025), and previously Heliopolis Sporting Club and Police Union Club.
- Competed in international tournaments (Partille Cup) and Egyptian Universities' Championship (silver medal).
- 2022/2023: Played for Arab Contractors Club on loan.

Projects

Cartoonizing Images Using Genetic Algorithms (Bachelor's Thesis) Feb – Jun 2025
- Web app (Flask + PyTorch + React) turning portraits into cartoons via deep learning anime-style filters, genetic algorithm optimization, and 468-point facial landmark detection for expressive feature exaggeration.
- Achieved 20%+ improvement in structural similarity with GA optimization; real-time sliders and optional GPU acceleration.

Hotel Travel Assistant (AI Chatbot) Fall 2024
- AI-powered chatbot with LLM intent classification (Groq), semantic search via FAISS and sentence transformers, and graph-based hotel queries via Neo4j. Built with Streamlit.

Ducksplorer (MERN Travel Planner) Winter 2024
- Full-stack travel planning app with real-time booking, budgeting, and notifications.

3D Maze Runner Game (OpenGL) Dec 2024
- Infinite runner game built in C++ with real-time rendering, lighting, and 3D model loading.

JavaXSQL Database Engine Mar – Jun 2024
- Java engine with SQL-like syntax and B+ tree indexing.

JOAL: Charity Website (React) Mar – Jun 2024
- Platform for NGOs and donors to exchange goods.

The Last of Us: Legacy (Java) Mar – Jun 2023
- Turn-based survival game with AP-based mechanics and hero class system.

Certifications

Pathfinder Training Program, BSH Home Appliances Egypt Summer 2024

Language Skills

Arabic: Native **English, French:** Fluent **German, Spanish:** Fair Knowledge
